

Kingsthorpe College

REF: RHG/jaw

15th November 2022

Dear parents and carers,

Reports

As a result of parental feedback we are looking to increase the number of times we report to you across the year, and the level of detail in our reports. Our aim is to further help you with knowing how your child is dreaming big and working hard here at Kingsthorpe College.

Last year we provided three reports a year. These were:

- Report 1: Attitude to Learning
- Report 2: Progress Monitoring 1 (including Trial Exam results for Years 11 and 13)
- Report 3: Progress Monitoring 2 (including Trial Exam results for Years 11 and 13)

For 2022-23, our KS3 progress monitoring reports have been further developed to share details of your child's rank order within the cohort and their performance across key skills in their skills-based subjects.

Our KS4 and 5 progress monitoring reports will continue to report grades, but will also include unit level detail for vocational subjects.

This year, we are also looking to increase our reporting to you by providing an end of term summary of your child's attendance, achievement and behaviour data. We will also be reporting on their engagement in the school's two main learning platforms, Teams and Century Tech.

Finally, we will be sharing detailed curriculum and assessment information before our 2 summative assessment periods, that we hope will support you with supporting your child in preparing for their assessments.

If there is any other information you would find useful and would like us to consider adding to our reporting system, please contact me at Rhiannon.gant@kingsthorpecollege.org.uk.

I look forward to hearing from you.

Kind regards,

Rhiannon Gant
